

REFRIGERATOR COMPRESSOR CUTTING SYSTEM

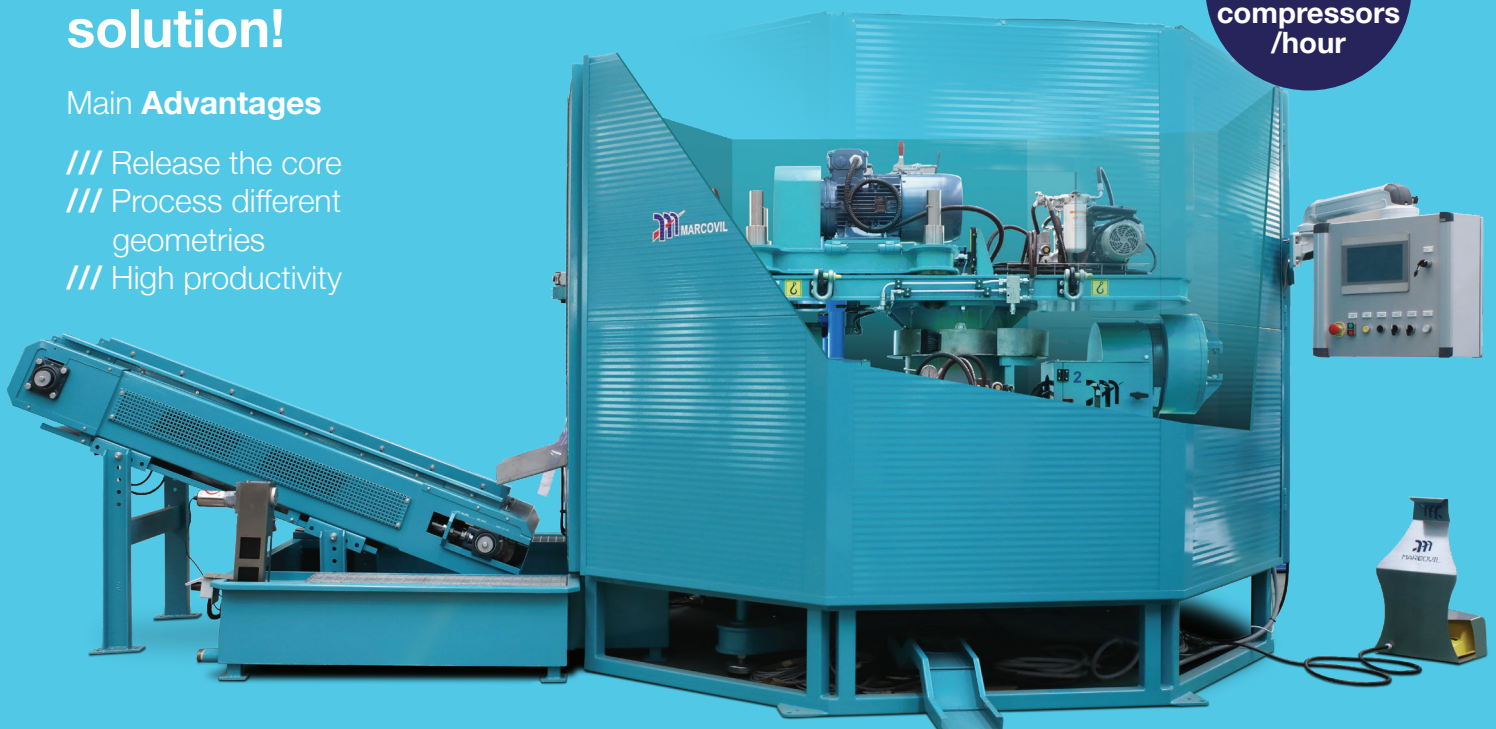

Problem recycling
fridge compressors?
**We have the
solution!**

Main Advantages

- /// Release the core
- /// Process different geometries
- /// High productivity

Up to
60
compressors
/hour

REFRIGERATOR COMPRESSOR CUTTING SYSTEM

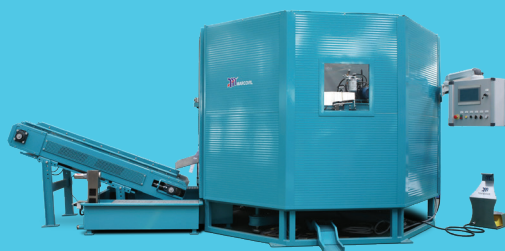

Parque Industrial de Coimbrões
Apartado 250
3501-908 Viseu - Portugal

INPUT

Old refrigerator compressors

Main cutting machine

OUTPUT

Copper Core

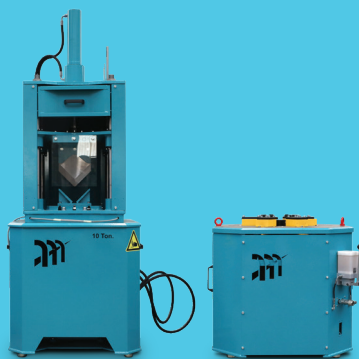

Ferrous

INPUT

Copper Core

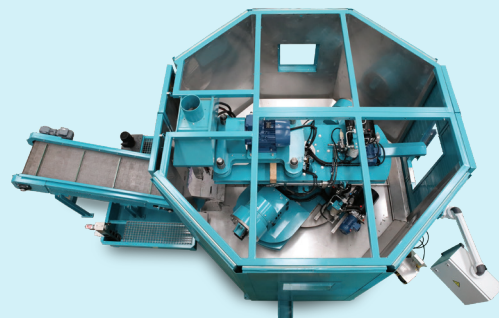

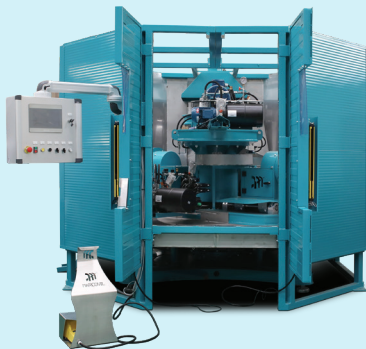

Complementary Wrecker and Extractor machines

OUTPUT

Clean Copper

GENERAL STANDARD FEATURES

/// Technology	Disc Cutting
/// Input	Refrigerator Compressors with Variable Geometry
/// Production	≈60 Compressors per hour
/// Geometry Detector	Included
/// Variable Speed	Included
/// PLC Control	Included
/// Production Software	Included
/// Installed Power	≈21 kW

*Complementary machines
